SUBJECT: Memorial

Joyce and I discussed the possibility of our donating a memorial of some sort dedicated to the people who were killed at the Pentagon on September 11, 2001.

I think it should include anyone who was connected to the Pentagon, including contractors, and anyone in any of the planes that crashed.

I don't know where we would put it, but it could be out near the crash site. It could be something on the ground with the names in bronze, possibly connected with a tree.

We ought to think it through. Let's talk about that sometime.

Thanks.

Recall that Torie and I discussed this with you on Friday (10/26). We'll work on an interim item to provide immediate recognition (plaque or something) followed by longer term project of ~~the~~ diatribe
