TO: Gen. Myers
Steve Cambone

FROM: Donald Rumsfeld

SUBJECT: Director of TTIC

George Tenet called. He wants to appoint John Brennan, the former chief of staff to Tenet and former station chief in Cairo, as head of the TTIC, the intelligence integration center.

Apparently Mueller, Ashcroft, Rumsfeld and Ridge all have a sign-off on who heads that. We ought to take a quick look at him, and then if he is okay give George an okay. George is responsible for it, so I am strongly inclined to be supportive of his selection, since he is going to be held accountable for it.

I would like to get back to him in 48 hours if we can.

Thanks.
