SUBJECT: Congressional Briefings on Detainees

I hope you folks are keeping a master list of all the briefings before Congress, to everybody, where we talked about detainees, including the breakfasts here.

It seems to me we are going to want to have that list and maybe get it out there soon to blunt the attack that we are not talking to Congress, we are not briefing them, and they don't know what is going on, because they do, and we should have that list. We should think about getting it into the hands of our friends up there.

Let me see what it looks like.

Thanks.
