

MEMORANDUM FOR THE FILES
Phone conversation with Fred Ikle
October 15, 1973

Fred Ikle called on October 15, 1973. He said he was trying to get the MBFR paper out. He said it might take another day or two. I said if it takes another week or two, it will start to unravel possibly. It would be helpful to get it. He said he would go to work on it. He said he was also trying to get a paper on SALT briefing for me. It was a very poor connection, and I couldn't hear very well.

Donald Rumsfeld
