

Gene McAuliffe

6/8/73

I have noted that the EC and the OECD are not getting many of our cables still. For example the stuff on the DPC didn't go to Greenwald. It seems to me that there is such a blur on economic and security questions that we ought to start passing our cables to OECD and EC. I think it would be helpful. If you disagree with this, please see me. If not, please do it.

Donald Rumsfeld
