

Memorandum for the file  
Conversation with Ambassador de Staercke  
July 17, 1973

Andre de Staercke called me on July 17, 1973.

He said that he was having the first PermRep lunch after the August recess on Tuesday, September 11. He indicated that it was his understanding that Kissinger was going to be in Brussels on the 10th to the 12th. If so, he suggested that we possibly let Kissinger know that he would certainly be welcome and that de Staercke would be delighted to have such a high personality at his lunch, and it would give Dr. Kissinger an opportunity to meet with them in an unofficial and discreet way.

(McAuliffe: We might want to include this in something.  
Please see me about it)
