SUBJECT: Military Advice

I told Myers and Abizaid today that they owed me their best military advice and that I expected them to give it to me without my asking for it every five minutes.

I said that I also expect them, as they do, to do what the President wants them to do and to report back as to how that is going. But they ought not to then cage their brains and then stop giving me their best military advice, because I have to have that.
