

11  
Congressman Alexander (Arkansas) called  
Tuesday, August 21, 1973  
From Geneva, Switzerland

I think he was attending the Disarmament Conference in Geneva. He expressed an interest in what was going on with respect to MBFR. I advised him that the talks in Vienna had shut down and they would reopen on October 30. I suggested that if he would like he could come to Brussels and be briefed on MBFR. He felt he could probably get the same thing back in Washington. I indicated that he should contact Marshall Wright and request a briefing if that is his desire.

He mentioned very favorably a long meeting he had had with General Goodpaster some months ago. I suggested that if he wanted to he could also tell Marshall Wright he would like to see Goodpaster the next time he came to the United States and possibly put together a small group to meet with him again.

NOTE: Gene, we probably ought to notify Marshall Wright of this conversation. Please prepare something.
