SUBJECT: Memo on MOD and MOI Development

Attached is a memo our folks here put together on the MOD and MOI.

The approach we have taken is to say first, what should be the criteria for the posts? And second, list some people who might be possibilities, with the implication that some others might not be on the list.

I hope you folks heard my point in the NSC meeting this morning when I emphasized the importance of "governing from the center," rather than simply having a "unity" or "inclusive" government.

Thanks for all you are doing.

Regards,
