SUBJECT: Obligations to Turkey

I think we should push very hard with Joe Ralston. Turks are being killed. If I were in their country watching the PKK come into my country and engage in terrorist attacks, I would be furious. I think we have an enormous obligation to do something to make it stop.

There is a terrorist camp - I believe the name of it is Mahkmour -- that needs to be closed. They call it a refugee camp. Please look into it and get back to me.

Thanks.
