SUBJECT: Karen Hughes

I have reason to believe that Karen Hughes and Condi are concerned about the detainee matter. I have briefed Condi.

I think we better get Karen Hughes back over here and give her a full briefing on what the situation is. We should give her a copy the briefing charts, without the last two pages.

I would be happy to participate in it. I think it is important because she has that responsibility and is working the problem with the interagency and the boss.

Thanks.
