

August 5, 1976

STASER:

It seems to me we might want to consider talking to Kaufmann and Marshall and Clements about including something in the classified version of the Defense Report for next year on our industrial base versus the Soviet industrial base, and on our surge capability in different areas versus their surge capability in different areas. Talking about short periods of time like 6 months to a year to two years to three years.

8/6 Aleted Kauffman
8/7 Memo to Clements
and Marshall asking
their views.
